

# MAXX-ERGO-TILTER

The **MAXX-ERGO-TILTER** is a manually operated Tilt Table ideal for table applications where tilting baskets, containers, or other loads improves ergonomic access.

**Capacity**  
2,500 lbs.  
Fork Pockets  
come standard for  
transportation.

## **Specifications**

Standard Platform size is 48" X 50" with a 16" lip. Tilt is 45 degrees and the platform is 26" high in the horizontal position.

## **Operation**

A manual hand pump lever with extended handle allows operator to raise the table to horizontal position. A lowering foot valve allows platform to be lowered into tilted position.

## **Options**

10" Raised Base  
Custom Sizes Available
